

MyRVectorFunc::getSum

```
graph LR; A[MyRVectorFunc::getSum] --> B[RcppFunction::clearProtectionStack]; A --> C[RcppFunction::setRVector]; A --> D[RcppFunction::vectorCall];
```

A diagram illustrating function calls. A central box on the left, labeled 'MyRVectorFunc::getSum', has three arrows pointing to three boxes on the right. The top box is 'RcppFunction::clearProtectionStack', the middle box is 'RcppFunction::setRVector', and the bottom box is 'RcppFunction::vectorCall'.

RcppFunction::clearProtectionStack

RcppFunction::setRVector

RcppFunction::vectorCall
